

CantiImager®

Synergie Cad Group has developed and improved Cantilever Cards for many years now and improvements have been made to increase the limits in terms of test Imager production. With the support of key customers a new solution *CantiImager®* is now available.

Synergie Cad Group has developed in partnership with our customers a Global Solution of Test on PCB and *CantiImager®* .

Advantages

- Test multidut
Configuration : // 8; // 16; // 32
2x16; 4x8; 2x8
- Test in Temperature 150°C
- Yield
- Installation Component
- Skipped Test Solution
- Large aera Imaging Devices

Synergie Cad also uses its experience and its know-how to manufacture *CantiImager®* Probe cards for testers such as Teradyne, Verigy and many more..... Please ask for futher details.
