

VertiB® Vertical Bump

Synergie Cad Group develops and improves Vertical Probe Cards since many years now. Improvement made to pass over new limits in term of test of Bump production. With the support of customers a new solution VertiB® is now available.

Synergie Cad Group developed in partnership with our customers a Global Solution of Test (PCB and Vertical Solution).

Advantages

- **Test multidut**
- **Configuration :/**
 - // 8; // 16;
- **Test in Temperature 150°C**
- **Yield**
- **Installation**
- **Component**
- **Direct Attach**

Synergie Cad also shares its experience and its know-how to manufacture VertiB® Probe cards for other testers such as Teradyne and Verigy Tester..... Please ask for futher details.
